

Cetis 

M Series

Built-in USB ports support guest smart device charging requirements.

M Series Bluetooth sound system versus a standard telephone speaker.

Matching trimline available.

Supports multiple front/back facing RediDock remote handset kits.

More than just a telephone.

More than just a telephone, M Series establishes a new definition of hotel guest room telephony. M Series phones are equipped with USB charging ports on the phone and RediDock remote handset kits to support guest smart device charging. Choose single or two-line analog, VoIP, corded, or cordless configurations, with 0, 5, or 10 guest service keys, and 0, 3, or 6 on the RediDock remote handset kit. OneTouch voice mail retrieval automates guest messaging. AutoSync registers RediDock handsets with the base to eliminate connection failures and misplaced handsets.

M Series Bluetooth

M Series Bluetooth analog corded phones keep guests connected via Bluetooth pairing to stream sound, place and receive calls over their own cell network, and charge smart devices via built-in USB charging ports. A high performance stereo sound system replaces stand-alone audio playback devices in the room to save space, and empower enhanced guest telephone speakerphone calls and conferencing. Available with 5 or 10 programmable guest service keys, patented OneTouch voice mail retrieval, and a fully integrated plastic silk-screen faceplate module.

Sophisticated styling. Smart technology.

Pair smart devices via M Series Bluetooth technology.

OneTouch voice mail retrieval.

USB charging ports for phones and tablets.

M Series

- Three-way conferencing on two-line models.
- Integrated metallic gray full plastic faceplate for screen printing.
- Choose optional custom color faceplates with screen printing.

E Series

Small is the
new big.

Now available with USB charging ports, E Series phones are amazingly big on features, yet surprisingly small in size. Teledex E Series phones are 40% smaller than standard guest room telephones, creating an entirely new category in hotel telephony design. Specify optional USB charging ports in single and two-line, analog, VoIP, corded, and cordless configurations with up to 12 programmable guest service keys on desk units, and 0, 3, or 6 guest service keys on RediDock remote handset kits. E Series flat panel, compact style adds a touch of elegance to any room without compromising functionality. Originally styled to meet the limited space and energy requirements aboard cruise ship cabins, E Series micro-footprint phones require minimal surface area on the desk and nightstand. Interior designers appreciate the sophisticated extra thin, ultra-stylish body while guests enjoy the familiar, comfortable feel of a sleek, modern handset. Engineered specifically for hospitality applications, E Series phones are equipped with patented OneTouch voice mail technology for hands-free auto-dialing and retrieval, and customizable faceplates. Give your guests the elegance they deserve.

Choose single or two-line corded, cordless, analog, or VoIP configurations.

E Series USB analog

E Series Trimline

E Series USB models add USB ports on the corded and cordless base units, and RediDock remote handset kits in support of guest smart device charging.

I Series

The original small footprint phone.

Teledex I Series (formerly Teledex iPhone®) is the original small footprint telephone built specifically for the hospitality guestroom. Designed to embrace the sleek style of the modern hotel guestroom, I Series provides a familiar user interface for your guests in your choice of single and two-line, analog and VoIP, corded and cordless configurations. Choose 0, 3, 5, or 10 programmable guest service keys, an optional speakerphone, and our patented OneTouch voice mail retrieval technology.

I Series cordless telephones reduce the need for multiple telephone jacks in the guestroom, supporting up to 3 additional AC-powered RediDock charging stations, and providing guests with a cordless home-like environment. Like all of our cordless Teledex phones, I Series phones are also available with optional battery backup for use during power outage situations.

Choose single or two-line corded, cordless, analog, or VoIP configurations.

Small footprint. Ergonomic design.

Compact footprint saves on space.

OneTouch voice mail retrieval.

Comfortable ergonomic handset.

- Dual NEON/LED message-waiting indicator compatible with all major PBXs (Siemens, FSK, or Reverse Polarity message light options available).
- Choose up to 11 (VoIP) or 10 (analog) guest service keys.
- Cordless phones support up to three additional handsets per base.
- EasyAccess™ data port.
- Three-way conferencing on two-line models.

Opal Series

Choose single or two-line, corded or cordless analog configurations.

Designed with the world in mind.

Teledex Opal Series telephones have a recognizable international design that complements modern guestroom décor. Available in single and two-line, analog, corded and cordless configurations, with an optional speakerphone, Opal Series are equipped with a red multi-function message-waiting light, and 0, 3, 5, or 10 programmable guest service keys.

Teledex Opal DCT Series cordless sets support up to 3 additional AC-powered RediDock handset charging stations giving your guests the ability to charge their handset from multiple places within the room . . . all without needing additional guestroom telephone jacks. Opal DCT Series cordless phones are also available with optional battery backup during power outages.

International design. Legendary quality.

Cordless RediDock available.

Matching Trimline.

Choose corded or cordless configurations.

- Optional remote cordless handset battery backup.
- EasyAccess™ data port.
- Up to ten configurable guest service keys.
- Full-length faceplate area

D Series

Choose single or two-line corded analog configurations with optional USB guest smart device charging ports.

The new Diamond.

How do you improve upon Diamond Series, the most popular hotel phone in the world for 33 years running? We began the development of D Series with a fresh new contemporary design, robust ergonomic open handset, and guest smart device USB charging ports, but maintained the same Diamond faceplate area ... so Diamond Series owners may easily upgrade with existing faceplates. D Series sets the new standard in analog corded hotel phone telephony in single or two-line models with built-in USB charging ports, up to 10 programmable guest service keys, patented OneTouch voice mail retrieval technology, and optional speakerphone. D Series, like all Teledex products, is thoughtfully designed to meet emerging guest preferences, and to last for many years in demanding hospitality environments.

Diamond Series

Choose single or two-line corded analog configurations.

World's most popular hotel phone.

This is the phone that started it all. In fact more hotels use Teledex Diamond Series than any other guestroom telephone. With over 5 million in service worldwide, this corded analog phone is available in single or two-line models, with up to 10 programmable guest service keys, patented OneTouch voice mail retrieval technology, and an optional speakerphone.

Fresh design. Same faceplate.

USB charging ports.

New ergonomic handset.

Matching Diamond faceplate area.

D Series

- Single and Two-Line Telephone

9600 | 3300 Series

Choose single or two-line corded, cordless, analog, or VoIP configurations.

Choose 3300TRM analog or 3300IP-TRM VoIP models.

Choose from seven handset insert color options to match your brand, office, or guest room décor.

Beautifully engineered.

From bold design, smart features, and legendary performance, TeleMatrix 9600 Series cordless and 3300 Series corded phones make perfect sense for you and your guests. Flat panel design complements the look of flat screen television sets in the room. Choose from 7 standard or custom color handset accents to match any room décor and coordinate style with functionality.

Features include patented OneTouch voice mail technology for hands-free auto-dialing and retrieval, and an integrated Ethernet pass-through port for guest connectivity. AutoSync pairing automatically registers remote 9600 Series cordless handsets with the base unit when in the cradle to avoid failures from misplaced handsets. Our optional battery backup feature also helps assure guest connectivity during power outages.

Bold design. Colorful options.

Supports multiple handsets.

Lobby model available.

Ethernet pass-through on analog and SIP models.

Wired Internet port for guest connectivity.
